Max does **NOT** want to be sectioned (again)

Max does **NOT** want to be resuscitated

I **DO** (somewhat) want to be remembered so feel free to save this note

Circumstances warrant suicide

As of **3 January 2024**, if I keep living I will spend the **rest of my life** living in **institutions pacing around** in **agony** for **days-on-end** (https://youtu.be/byFP0lZSdR4?si=v3-LdvsaPpGMu9nl) due to OCD (chronic unrelenting mental illness ~ utter agony && nothing works) in the **BEST** case **scenario** or **homeless** && **dead** to **exposure**.

It's **INSANELY HARD** to leave my loved ones && this world behind but after 5 months of **careful deliberation death** seems like the **only plausible escape**.

Reasons are **Obsessive Compulsive Disorder**, **depression**, and **traumatic social ostracism** from a **community** (check the **“Drama Timeline" section**).

I **CANNOT** live a **painless life** or meet **ANY** of my goals! So, I must be brave and take a leap of faith by suicide && trusting God won't abandon me!

To everyone reading this: **DO NOT TAKE ANYTHING FOR GRANTED GRASP EVERY GOOD MOMENT!!!**

I’m **immensely grateful** to **God** for the **worthwhile life** he **gave me** from **1998 until 2021** && **bits of light 2022** && **2023**

I **spend many days in 2022 && 2023 running around** like a **headless chicken** 🍗🐔 **crying**, **begging**, **praying** for **a solution** but this **isn't a good way to live** or **proceed**.

In the **end**, **all of us die**, I’ll be **going a little sooner** but **I'm glad I was born <3**

Absolving everyone of guilt

Liv privately told Yakko she **felt responsible** for **my plight/situation**.

I **DO NOT want** to **traumatize anyone** by **offing myself**, **especially NOT Olivia**.

She's one of the lights I look back on in life and **I'm grateful I met her <3**

My **final happy (or bearable) year 2021** was **spent** with **Olivia**.

Same for **everyone** else, **life is a gift**, **don't be hung up on a dead clump of cells (me)**.

If I **end up** in **HELL** I'll **draw comfort from the good memories/moments**!

Do **take** into **account** the **excruciating mental pain** && **anxiety** I am in whilst typing this all down! At the end of the day the **only things** that **matter** are **loved ones** && **kindness**.

GOD HAVE MERCY UPON MY SOUL AND THE AFTERLIFE BE SALVATION!

Childhood trauma

My **mom** has **Borderline Personality Disorder**, **Bipolar**, **Anorexia**, and **countless other mental illnesses** and was **first diagnosed** at an **alcoholism rehab facility** at **29**.

She's **one of those people** that **shouldn't have had kids EVER yet it happened** and the **traumatic childhood experiences definitely pulled/activated** the **worst** of what was in me in terms of **mental illness genes** e.g. **Obsessive Compulsive Disorder** && **CPTSD**

In **typical BPD (or NPD) fashion** she'd **deny everything** or **shove the blame** on my **grandmother**, likely because **she literally can't due to her brain's configuration**.

She's so **worried I'll commit suicide** she **reached** out to **Olivia** over **Facebook without my knowledge at the time** and also **keeps telling me she wouldn't cope if I died**.

Despite all the trauma && **her presence** or **any contact triggering** and **sending** me into **HUGE SPIRALS** she **has "helped"** me **here-and-there** and **I still "love"** her likely due to it being **ingrained and necessity** but I still **don't want her to have a final bad 20 years of life**.

I hope **she somehow finds some peace** in the **end** and **doesn't blow her windfall** (her **inheritance share** is **around 80.000 euro**).

Early days 2018 - 2021 Moon Chimps Media

I **came across MoonChimpsMedia**, a **mental health server** on **April 25th of 2019**.
I was quickly **taken into the fold** especially by **Olivia (Ribbit)** && **Oleg (Haxor)**.
Heaps of drama and shenanigans ensued and loads of people vanished or were traumatized by what happened in this server but time is short and they're not relevant to my suicide so in **2021 I got extremely close to Liv** to the **point we spend 1750+ hours together on VC some months 250+ hours** and after my ban **May 2021** and **grandma's death June 2021** my **entire support network was basically Olivia** for a while. I went to **Ghent to cope with the ostracism** from the community and my **grandma's death** which led to **"Max && Liv in Ghent 2021"** in a specialized OCD program which led me to gaining some swell memories and ward friendos.

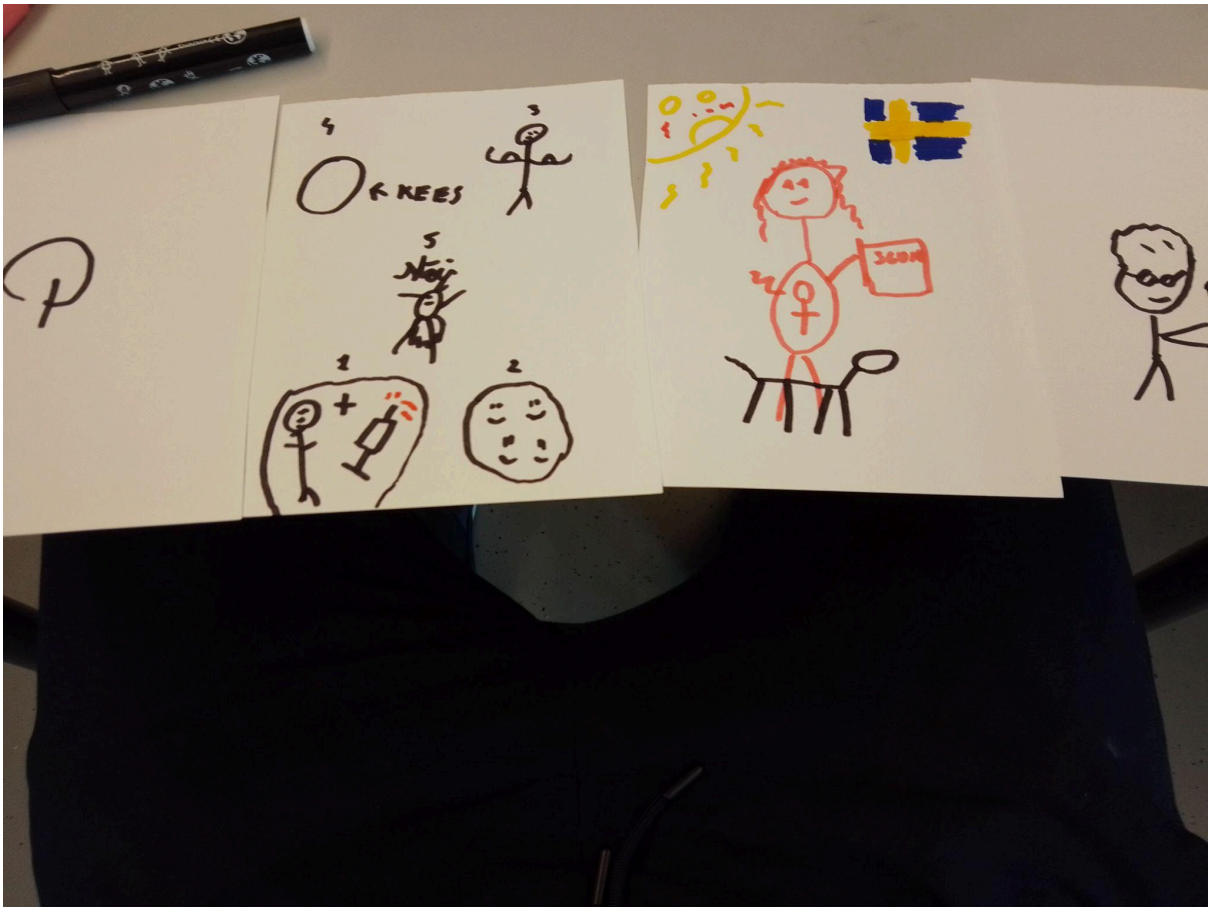

The 2021 MoonChimpsMedia drama

The **important bit** here is that **I ended up on the bad side of folks that now ran MCM**.
Disclaimer: In 2023, **Yakko seemed to put up** with his **Schizophrenic symptoms** to be there for me, after **Fern reconciled us**, and we **reconnected in February 2023**.
He **flat out told me that out of anyone online I broke his trust** the most e.g. telling **Moonie on an alt mid 2022 that he was SA as a child** ~ no alcohol, drug use, or mental illness really rectifies this. **I just wish I didn't antagonize him early 2021** && continued being good friends ~ everything would be different right meow
Even after I broke his trust a 2nd time in November 2023 and he **shared a lot of personal things February until October 2023** that made any animosity or anger I had towards him evaporate. At the **core** my **issues** are **OCD** and that's **not Yakko's fault**.

Max && Liv in Ghent 2021

Liv **ALWAYS cheered me on**, occasionally **as her brother**, and told me to stop being such a **Debby downer** and that she wouldn't be okay if I left.She saw me make **new friendos** e.g. **Ginger Boy**, **Birthe** (Victorian era looking Dutch girl), and **Karel De Meestere** (semi-famous painter), **Seppe** (stinky roommate), etc.She **told me** she'd give me a **little kitty necklace** for my **birthday** 🎂 **30th of November**, in person ❤️

Drew && **showed doodles** of **Liv** (to **Liv**) …

Liv got **upset I would chose euthanasia** over life or **me rattling of "Hoe Men Van Even Klaproos een Korenbloem maakt"** in **Dutch** and **excitedly** telling me **she understood parts** of **Swedish** being an **adjacent language**.

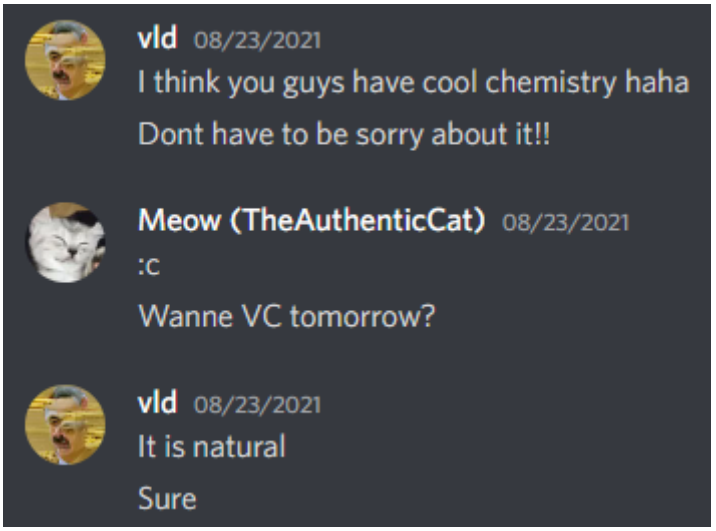

We watched hecking **spooky movies** and **Liv read** me her **favorite novels** e.g.

"**Wuthering Heights**", etc. It was the **final time** I would **ever** be **genuinely happy**.

I will **never not be grateful** for all the **good Liv brought into my life** during this time

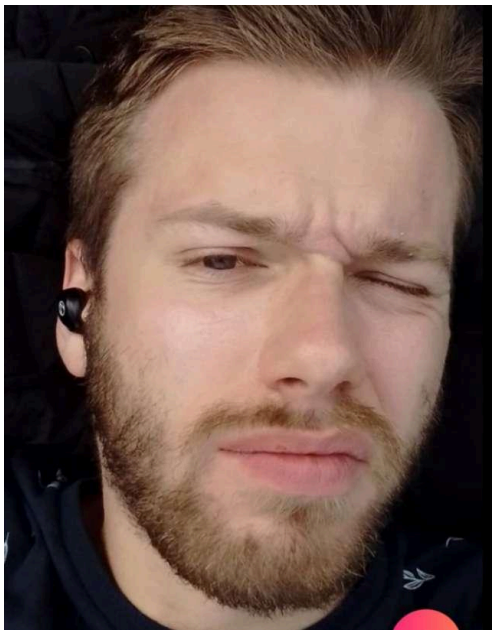

despite **our friendship deteriorating** over the **course** of **November 2021** 🕯️

Liv && **I** also **pulled others** into our **daily VCs occasionally** like **Vlad** && **Hero**

She even said we'd wait until Agnes comes back to take better Tinder pictures :c

Me circa late 2021:

Max’s final death spiral

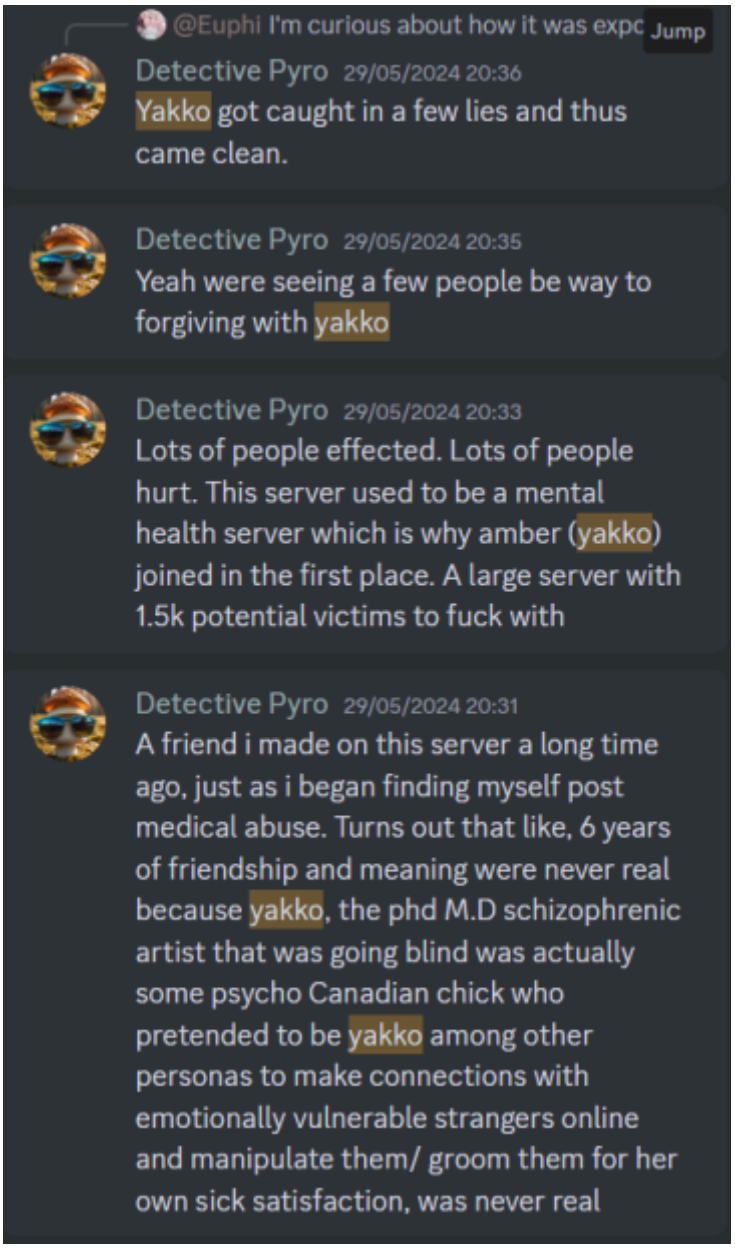

Late 2021 I was doing my **best to get my life back in order**, meeting **Discord friends IRL** like **Ted** and even **getting a PC system**:

My **own server** that was **kicking off late 2021** “**Sweet Home**” was supposed to be a 2nd chance and it was successful until they **re-branded** and re-opened **MCM** as “**Rooftop Raccoons**” seemingly to spite me too (changed the “Helper” role to “Mini Mod” after how I called my mini moderators. **Tina backstabbing me** here really paid off dividends e.g. she **regained Yakko’s favor** and thus **access** to **the community Rooftop Raccoons**, but as they say **no honor amongst thieves**.

Yakko the Stalker/Puppeteer 2022 - 2024

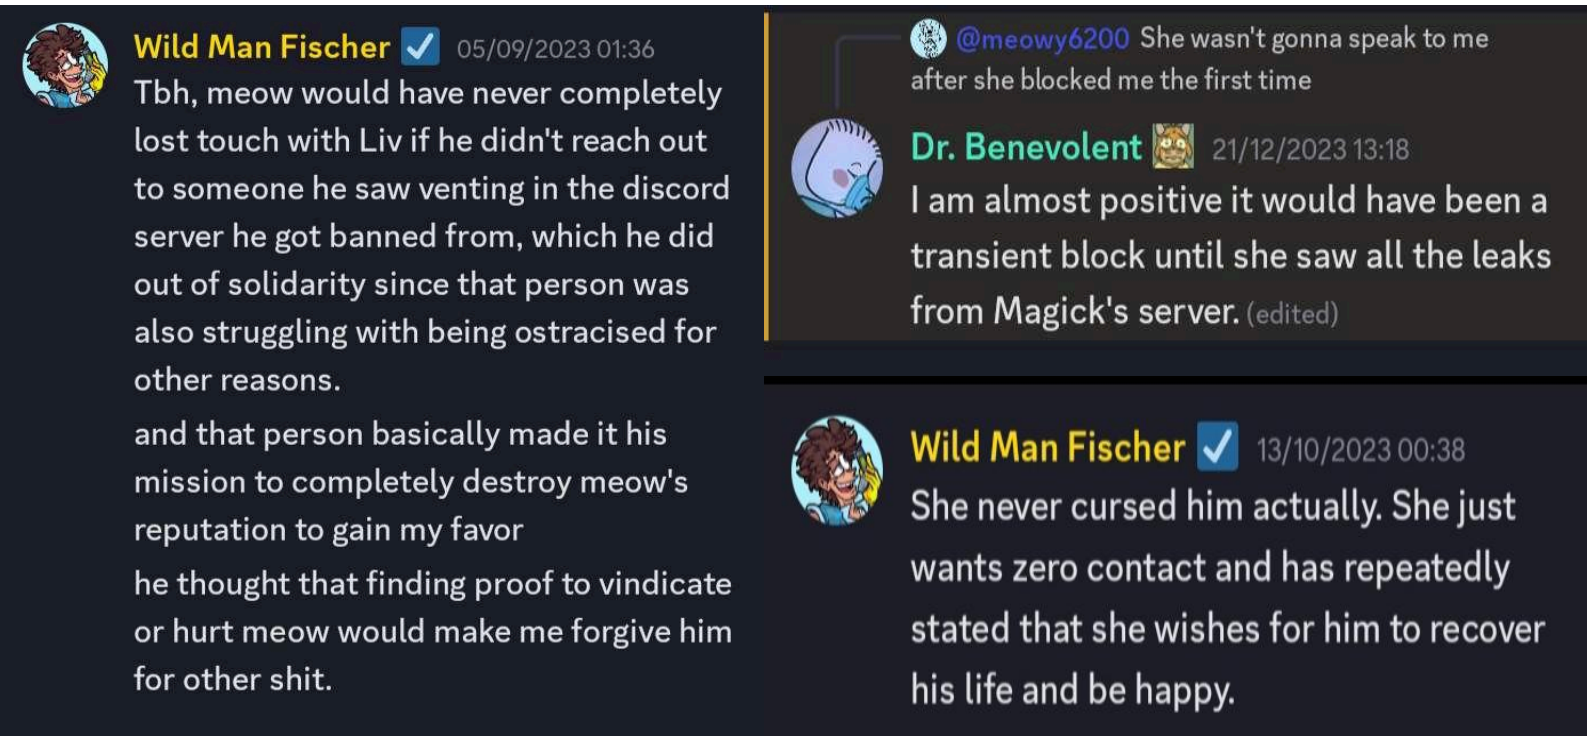

I'm adding this in **2025** after **Yakko** was **revealed** to be an **evil POS** (please check out the second document). It turned out **Yakko was** the **main contributor/cause behind** most of these **horrific events**. I don't care if **she pretends** to "**turn over a new leaf**", the **harm** she **caused** is **eternal** and **SIGNIFICANT**. Please **read** the **2nd document** after **this** one.

2022: 8 torturous months isolated in Holy Heart Ypres

Liv blocked me **19th of January 2022** and **rejoined Rooftop Raccoons 24th of February 2022** which led to me **telling** my **shrink** I was going to **commit suicide** which led to a **4 month ward stay** then **another 4 months** because **Olivia called** over things I said in this other server “**The Insane Asylum**” which made it so I couldn't go to my **grandma's house** right **before** the **foreclosure** to “**decontaminate**”. There’s also a whole “stalker”arc here with one of them “Angel” doing his best to entirely destroy my reputation.

Yakko (Wild Man Fischer) && **Fern (Benevolent)** on **Olivia’s block**:

On Olivia’s actions towards me in 2022

I’ll be **completely honest**, I pulled Olivia out of being hated && ostracized early 2021.

Part of the reason everything happened is because Oleg got FUARKED and others usurped power and threw a few folks like Mae to the wayside (AFAIK I was the only mod to put up resistance to Mae’s ban April 2021).

I **went around to ask folks to speak to her March && April 2021** and **it cheered her up**.

My willpower and survival drive are exceptional. I lasted against the darkness in my head for years despite the worst case scenario so this seems to have been my Achilles heel 👠.

If you came back between March 2022 ~ July 2023.

Who knows? It's irrelevant because that's not what happened but I hope that whatever you got out of it was damn worth a lot, Livy.

Sometimes, I think “I don't know how you could isolate me when you knew I had nothing at all to fall back on except my grandma and MCM. Dave told me you told them I was just “doing it for attention” (referring to the euthanasia). Furthermore, you're so socialized IRL yet Oleg's “isolation” attempts were horrific to you? How the heck did you think I would cope???” but this is just purposeless resentment. At the end of the day, it's not your fault I have such a broken brain.Thank you for giving me some good in this hell <3

An apology to Olivia

Oh boy … the hardest part of the note …

Livy, I apologize for breaking your trust by sharing DMs, your secrets, venting my homicidal thoughts and alluding to coming to your house to stab you early 2022 after I was pushed aside.

Late 2023 whilst wandering the graveyard and recalling how Olivia told me she carries knives around, the distress at Oleg possibly seeking revenge, and your entire trauma history we discussed September 2021 when you went to that psychologist and I truly hope I didn't worse your PTSD because that'd be too much to bear.

At the end of the day we're both silly beans. Apologies for everything. Even if you hate me, now I love you forever <3

I **worked out often** and **did my best to "recover"** but the **limerence** and pain of being **left behind** && **out** of **Rooftop Raccoons** was **nearly constant** and **extremely demoralizing.** I **honestly needed Liv to do a 180** here and **pull me out ASAP** but this was a good **0.1% chance of happening**. I was mostly **"recovered"/remission OCD wise**. My **issue** was actually being **trapped** in the **ward** itself and it **made me much worse** the **longer** I was **trapped**.

Afterwards, I was **homeless** for **2 months** which forced me to squat my **grandma's foreclosed house** (&& shit on the lawn like a dog) because plumbing didn't work but the gas did and this was during the **Russo-Ukro war's peak** so it **cost 3000 EURO** which got me put under **financial conservatorship** in **June 2023** which meant I could **no longer** do **compulsions** to get **rid of my OCD** stuff (not able to purchase anything online like towels) which means **I'm stuck** and is also the **reason I want to kill myself** so much but I hope **everyone involved has a happy life regardless <3**

Max’s final six months

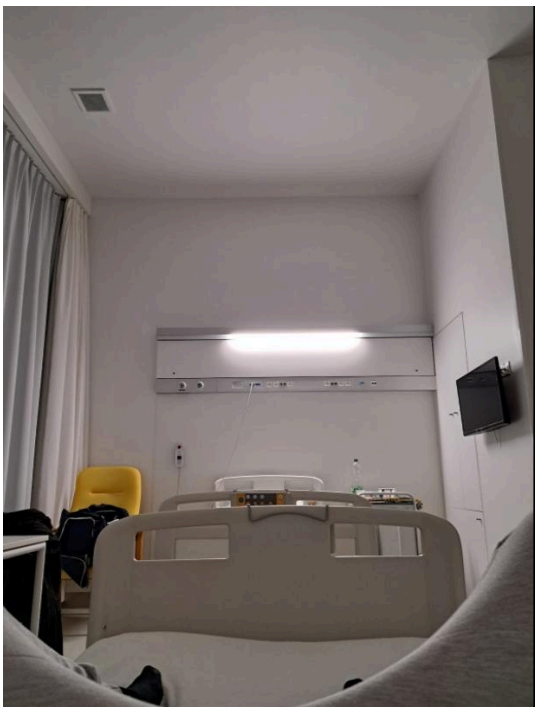

My rape the 11th of August

I’ve **always felt quite asexual** (including it being hard because **stage 3.5 phimosis**) but Liv as well as others felt **I was gay** and **I’ve been bi-curious** but pushed those feelings aside since I felt they might be **rooted** in **childhood trauma** (one of my mom’s boyfriend’s Patrick) Made a big mistake 11th of August as a cope with the server invite decline and euthanasia taking another year …

Since **August 2023** I **developed akathisia** and other **nasty side effects** that make my life a **living hell 24/7**, every second of every day, for **5 months** and now I’m on the verge of **ending it all to shed the pain, regrets, … this isn't a life …**

I’m **in-and-out** of **crisis wards** trying to get through the days or **SECONDS**

I met up with **IRL friends (Jawad <3)** and **forged** other **bonds** like with **Axi, Ella, countless others** so it wasn't all **bleak** … Wish I could've told **Liv about it o-o**!

Two miles from salvation … A word on the conservatorship …

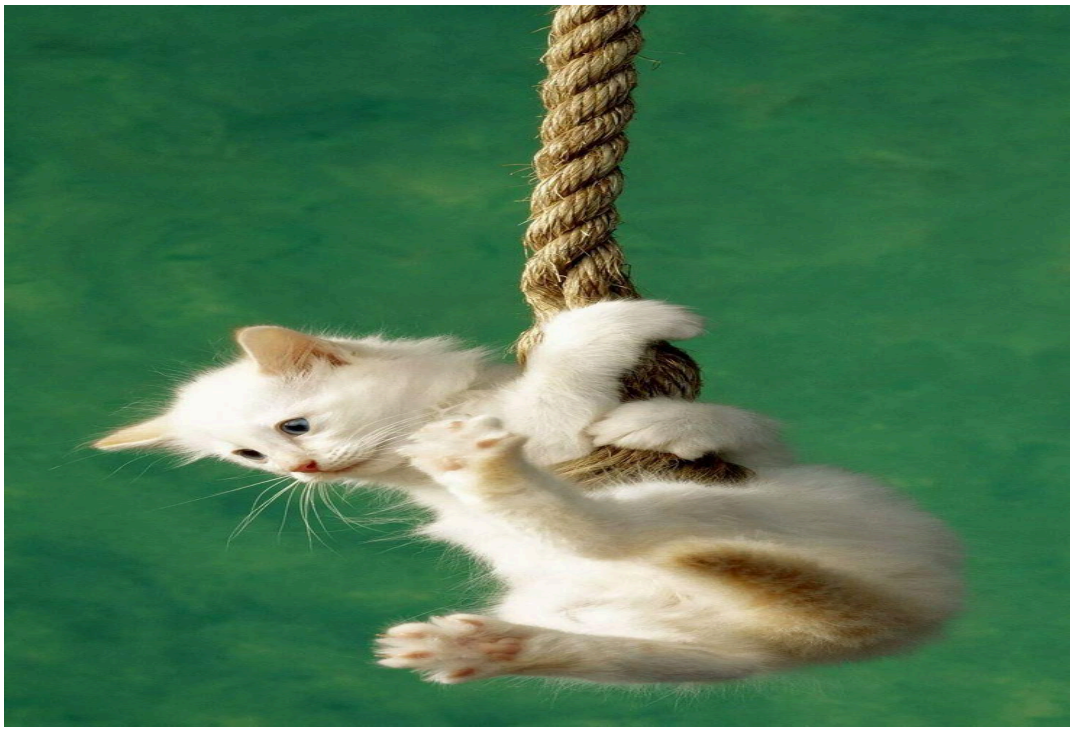

An **apt comparison** to my **current plight** is https://en.wikipedia.org/wiki/Chris_McCandless after foraging came up short Chris starved to death but after the fact it turned out he was extremely close to civilization/salvation.

I find myself in **the same position** as I **have €25.000** in a **savings account** from employment, NeetBux savings, and donations but can't access it due to the (unjust) conservatorship.

It **comes under review 1st of May 2024** but I **can't stand the agony** that long unless a miracle happens e.g. **Liv reconnects** or **I find a hidden meth stash and drug myself to the point I'm so doped up and dazed** I don't know **left-from-right** which would just make them prolong it Indefinitely …

Max method && place of death

“night night” method (hanging) in a **solitary place** listening to **“BMO song”** from **Adventure Time** 🌟I’ll **pretend** it's **February 21’**, **Liv on VC**, **grandma downstairs**, **community intact** as I asphyxiate! I'm expecting **gruesome**, **slow** and **painful** but as long as it does the job it's okay. My **worst fear** is **surviving** with **OCD** but with **brain damage**

The **original method** was **euthanasia** but after **going there since September 2021** it's

STILL ONGOING because time in-between appointments takes so hecking long

Max's gravesite

Kortrijk (my hometown) **graveyard** in a **cosy meadow near** my **grandparents urns**, full of **ladybug friends** so **hopefully won't be lonely :3**. **Feel free to visit!!!**

Greatest Afterlife Fear

SCP: https://youtu.be/QOBku4gkMfY?si=xPL6ABpu1FjMFMLe

Mimicks what my OCD && central nervous system tries it's darndest to convince me of which is that we are our bodies and the contamination is somehow going to be tied to the atoms that make up my body. Of course, the more traditional Abrahamic version of hell is also terrifying.

I believe in God's mercy towards all his creations and that the contamination is just a painful sensation which I can't turn off 🅾️

I **REFUSE** to have kids because if hell is real then at least these hypothetical children won't ever have the chance to end up there!!!

I really would like to never exist again if God is merciful ~ I prefer the void/non-existence.

My corpse should be incinerated and ashes distributed in the meadow so I can just be absorbed and refurbished with my consciousness forever dissolved!!!

Coolest afterlife

Isekai as a **little kitty cat with magical powers (not in a furry way!) into a fantasy world.**

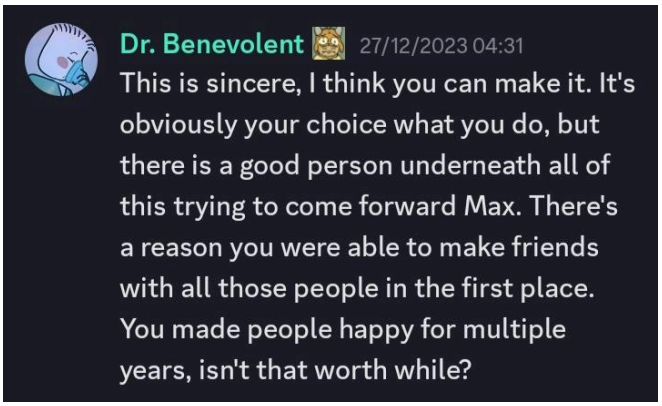

I would also gladly take the life of a regular house cat in our world too though!

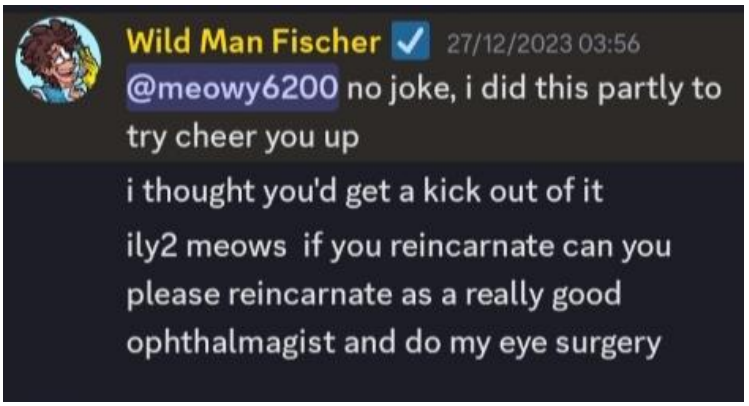

Goodbye messages to people I'll miss

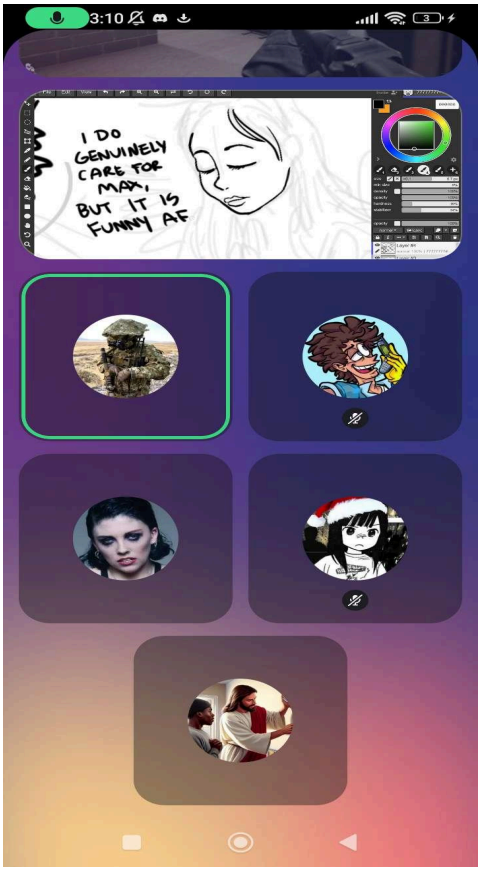

Yakko && Fern

~ love them both they **dragged** my **sick ass through 2023 <3**

Christmas Drawing Stream 2023😺 on my **main server** by **Yakko <3**

Final drawing Yakko ever did for me :3

Olivia

Used to be grateful to the universe that it **gave me OCD** because that's

the reason I ran into her at all. **Liv is precious** (albeit a **bit rough around the edges**).

She's likely better off without me as **I'm a sinking ship** with **seemingly no way out**. .

Liv's snarky younger sibling/sister-hood (or older depending on my deteriorating mental state 2021).

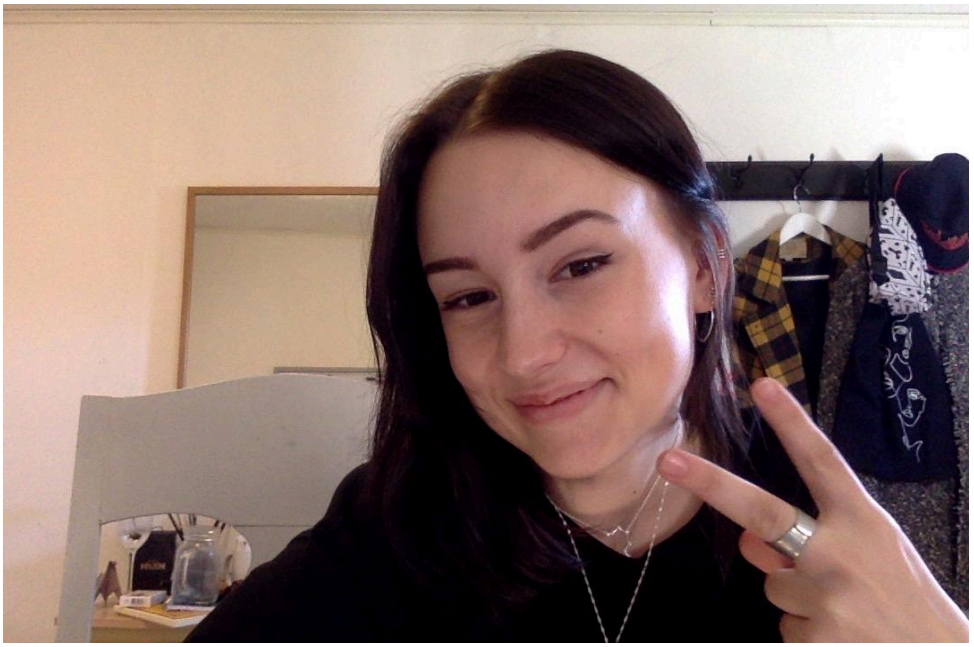

Watching Disenchantment, **Little Witch Academia**, **Adventure Time**, **South Park**,

Please Like Me (**FAVOURITE ~** Liv said the protagonist reminded her of me), Laid Back

Camping, etc in 21' 🍿😺 some final happy memories! (me around that time)

Liv around that time (**At the time** she **said I could use her pics to catfish incels**)

Liv is the **only familial light** I **look back on other** than my **grandmother**.

Wish I could've said goodbye but **her wish is no contact** and **I'm not going to force it**

I send **her an email March 2023** (**after asking Yakko's opinion/permission**) && **Yakko asked** whether she wanted to **add me to a mutual server** and **Liv declined**.

I do think **Liv would rather speak to me** && **grant me one final goodbye VC** because I want to **end it** with her **on a good note** but **there's no way for me to convey this** without it coming across as **extremely emotionally manipulative, insincere** and **toxic**.

The **best Liv can do for me posthumously** is just **live the best possible life** (and be a better person) can have and not **take a single day for granted <3**

Me && Liv around 2021 watching shenanigans unfold listening to this banger

https://youtu.be/DwpK5V8tmiA?si=SNgoxX1X-ZgUGmhE

Oleg

Oleg is **traumatized from the events in early 2021** but **still gave me a shoulder to cry on during** my **absolute worst moments when I had no one to turn to** as well as in **2019 && 2020 nearly every day**. I hope he lives an absolute **BALLER** life with **heaps of friends and good moments** since he's **a sweet person** <3

He **lost his main TeamSpeak crew** (22+ friendships of 5+ years and is **universally despised** by those **old folks and spend months upon months alone coping in a horrendous social situation**.

The **suffering ostracism can cause is excruciating**I wish it didn't happen in the way that it did even though opinions are divided, **life is too short to carry hatred**. I'm even **subconsciously adverse to mention him** because **folks might label me a pedophile apologist** but Oleg is **NOT** a **pedophile and I don't want him to be in pain anymore**.

Oleg predicted that **I would end up dead** in **case Liv one day**

pushed me away which **wasn't necessarily true** but the **block** and **ostracism** did **contribute significantly** so **I wish I listened to him back in those days** …

Jireh

~ she's a bit **unhinged** (likely has **Borderline Personality Disorder**) && **told me to burn in hell** but to me **she'll always be a silly silly bean to me** and **I don't hate her** ❤️

Ted

~ you're **one of the smartest folks I know** and **it was a pleasure meeting.**

I’ll see you on the other side <3

Me && Ted circa late 2021

Ella

~ you're one of those **silly heccin friccin beans I wish I could've lived a lot longer to get closer to and know but I'm grateful I got to meet you at the end nonetheless <3**

Shizuka

~ I **love how passionate you go through life** and I'm **grateful** to have been your friend

The **aesthetic is great** too although **everyone mischaracterizes you as a Nazi** (which is false). **Keep striving** and **grab life by the balls Ms Shizuka <3**

Niamh

~ **Good luck with your tattoo art**. I **think** you're **an amazing artist** and I pray you have a long happy life. **Watching** that **one Tik Tok movie around August 2023 was fun <3**

Zach

~ You're a **big chunk of muscles** with an **even bigger heart**. I **want you to be the most successful and life the unliftable anything**!!!

Whether it'd be an **unliftable dumbbell** or a **mountain**!!!

Droid

~ I **didn't know you too well** but you **gave me heaps of comfort** in my **final days**.

You're a gem and **I wish we could've gotten to know each other better <3**

(Grumpy) Gran && Duck

~ I **haven't spoken (much)** to **either of these people** but **Gran gets annoyed whenever people**

bring me up so I figured I'd frustrate her one final time by **name dropping her in my**

note. Fern also **told me Gran** hasn't ever steered away from her **principles** and since

she has **Yakko's complete trust** as well as what I **read in AC (server her and Yakko met**

to which he invited me early 2023) back in 2019 I don't think it was unfair for her to shun

me but.perhaps **me** and **Gran** would've been **okay friends** in **another timeline** >:3.

Dave told me Duck seemed concerned when **they all discussed** whether I was going to

kill **myself via euthanasia** and **if they should let me back into the server early 2022**

He **might just be a little queer but seems nice nonetheless** so yeah …

To both of these and **anyone** in **her new friend group**. **Take care of Liv**.

Liv is literally clueless despite the **huge hecking forehead** (**not always a sign of**

intelligence!!! - just kidding ^-^)

Tyler

~ Over the course of 2023 you've helped me cope in the **best ways** giving **extremely**

well thought out advice and **seemingly cared a lot for my well-being**. I **trust God** has

my **soul** and **will see you on the other side** <3

Jawad

~ **Dearest Jawad**, **please visit my final resting place sometimes** (he lives nearby and we've met IRL). It's the **Kortrijk cemetery** and **within 20 minutes walking distance** from the **station**. **I'm grateful that you tried to pull me out of my loneliness and introduce me to your IRL && Discord friends**. You're an **AMAZING person and I wish I had more time we probably would've had hella fun together <3**

Vlad

~ You're a **little anarchist bean** and **one of those chill folks** that **gets along with anyone**. I **hope** you can **fulfill** your **Ph.D in AI or dunking on the lesser abled with your huge cortex**. **Take care Vladster <3**

Scarlet

~ Bi-racial 250 IQ bombshell, I **LOVED** your posts but do **hope you take better care of yoursel**f and **don't let yourself be exploited <3**

Gingy

~ You **might not feel too poggies** reading this but you're an **Irish Emerald**💎(IK they're supposed to be green) && **wish you many public lobby** victory **royals u precious pea <3**

Andrea

~ Loverboi <3

Jesse

~ Thanks for the empathetic shoulder to cry on <3

Kasey

~ Wise pea!!!

~ Good luck stomping in Clash of Clans!!!

Axi

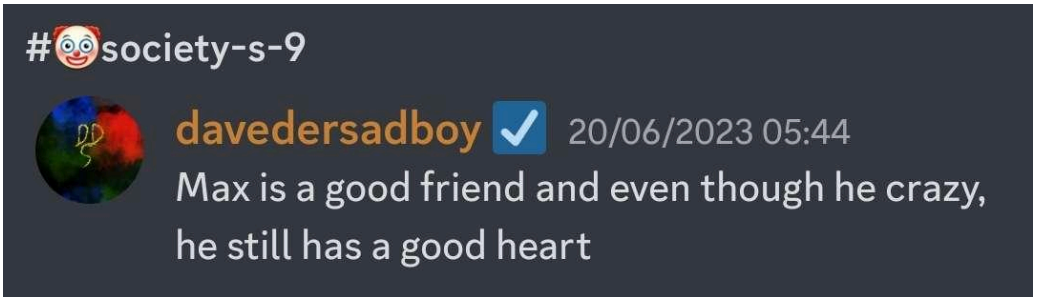

~ You're a good Shoeber <3 Destiny guided me towards you to connect with some folks and build a few fond memories. At least some good things that came out of my personal hell.

I'll miss you Axi :(

Regrets

Biggest regret is that I **wasn't strong enough to hang myself late 2021 ~**

I **would've been remembered fondly** by **Liv** but **my death** would've **hurt her more** so maybe it's **better I endured** so **she could totally distance herself** but Liv already had everything she needed to move on then and **I wouldn't have to suffer in 2022 && 2023**

Liv complicity whilst everyone they **didn't purge from Rooftop Raccoons trash talked** me, even people she made fun off with me a few months prior, was **the worst pain I've ever felt** and even **without the contamination** I would still **selfishly want to die** just to never remember.

The **way my friendship with Olivia/Liv ended** && harm we caused each other 😞

The **way my friendship with MJ/Jireh ended** && harm we caused each other 😞

My **friendship** with **Yakko never really ended** but **still regret the harm caused** <3

Leaving my loved ones (internet/IRL friends) behind 😞

I was so **caught up** in the **MoonChimpsMedia Discord drama** the **last time my late grandma ever saw me was distraught** and **crying June 2021**

Dying in my **mid 20's without reaching** my **full potential**

Offered Liv Disneyland trip late 21' told her **I'd off myself after ~ Liv got angry** and told me **she'd rather have me alive** so **never meeting Liv IRL IG**

Never meeting Yakko (he **proposed** this as **late** as **September 2023**), **Fern** (this would be possible if I was still healthy enough), **Axi**, **Kad**, **Cooper**, **Ella**, etc

Making the **wrong choices 2021** that **led me down this path** towards **oblivion**

Never playing Fallout 5 && **The Elder Scrolls 6** …

Never talking to Liv EVER again or **reconciling** or **even one wholesome goodbye VC**

Revenge && Ascension

https://youtu.be/qEkLrui_Jy0?si=MafVH_n_jaeUl7se

Revenge is a **dish best served cold** but there **isn't anyone to take revenge upon** or cause to **throw my life away for** and. I'm **naturally predisposed** to be **adverse to violence**.

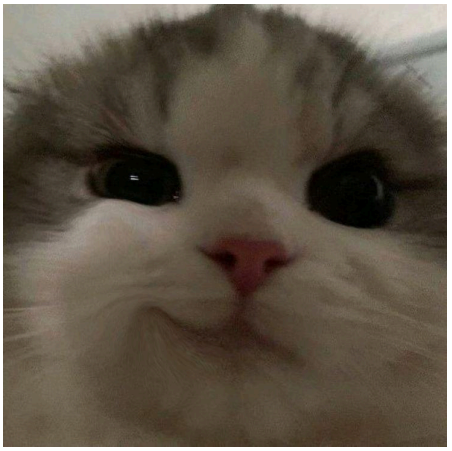

As far as Liv is concerned she's a bright 🌟 in **loads of people's lives** and even the thought of **actually harming her** in any physical sense makes me want to puke

Having said this, **I hope God takes note of my bravery**, **courage**, and **blind fate** I put in him to **raise me up** despite **every fiber** in my **being** && **OCD brain screaming** "**LIVE! LIVE! LIVE!!!**".

Plunging into the **abyss/death** in one of the most violent f*cked up ways imaginable.

Too many of you be it **Angel** or the **Czech shooter** take your anger out on innocents when it's **first-and-foremost yourself you should destroy**.

None of that degenerate sheet will **blemish** the **final page** of my **life story**.

SHOUT OUT TO PIDGE <3!!!

Glad God gave me the opportunity to see this :3

Max && Liv friendship

Romani Swedish girl I was **very close to for 3 years** ~ we larped siblings for a while ~ **VC** && **DM caps** here for **context** && **remembrance**!

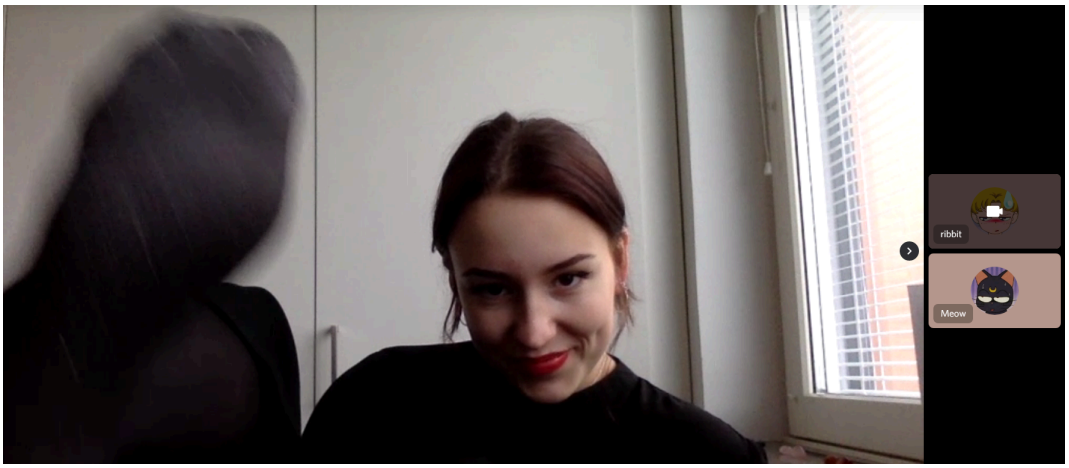

The **book I wanted to write April 2022 was to commemorate our friendship if that was going to be the end** and was a going to be **picture book of a Romani witch** with **her little magical kitty kat** that's always how I **depicted** and **presented myself** to **her** e.g. like in **Kiki's Delivery Service**:

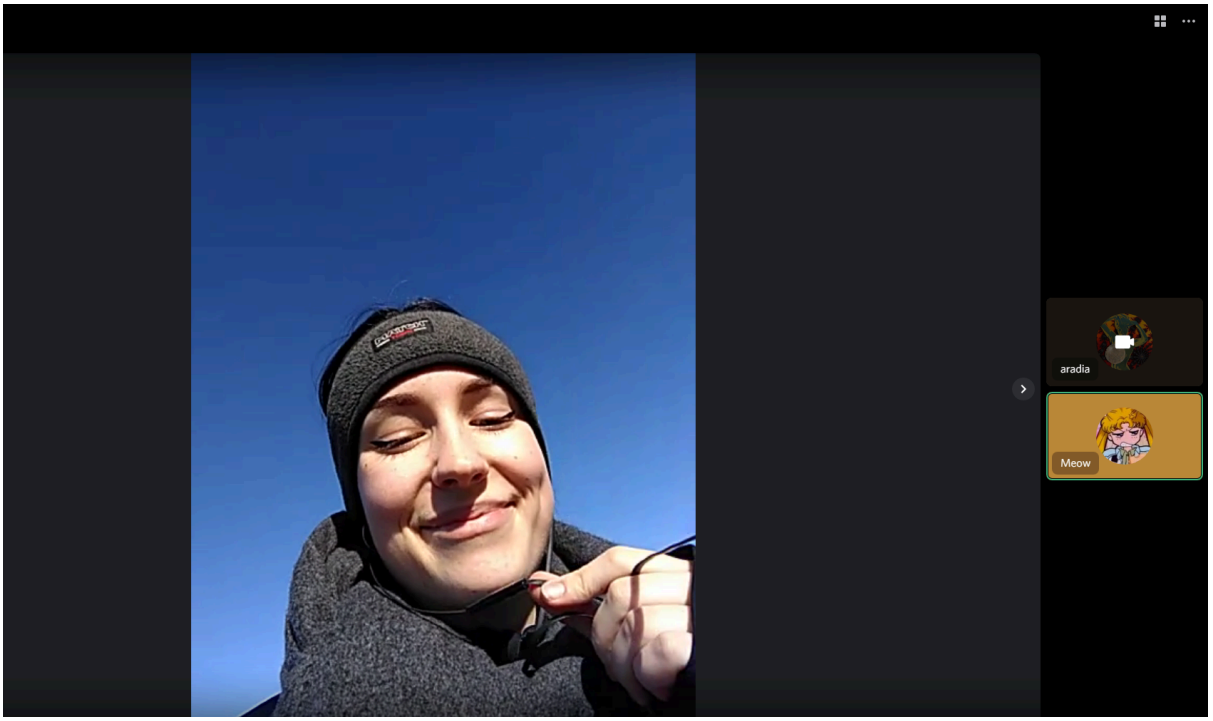

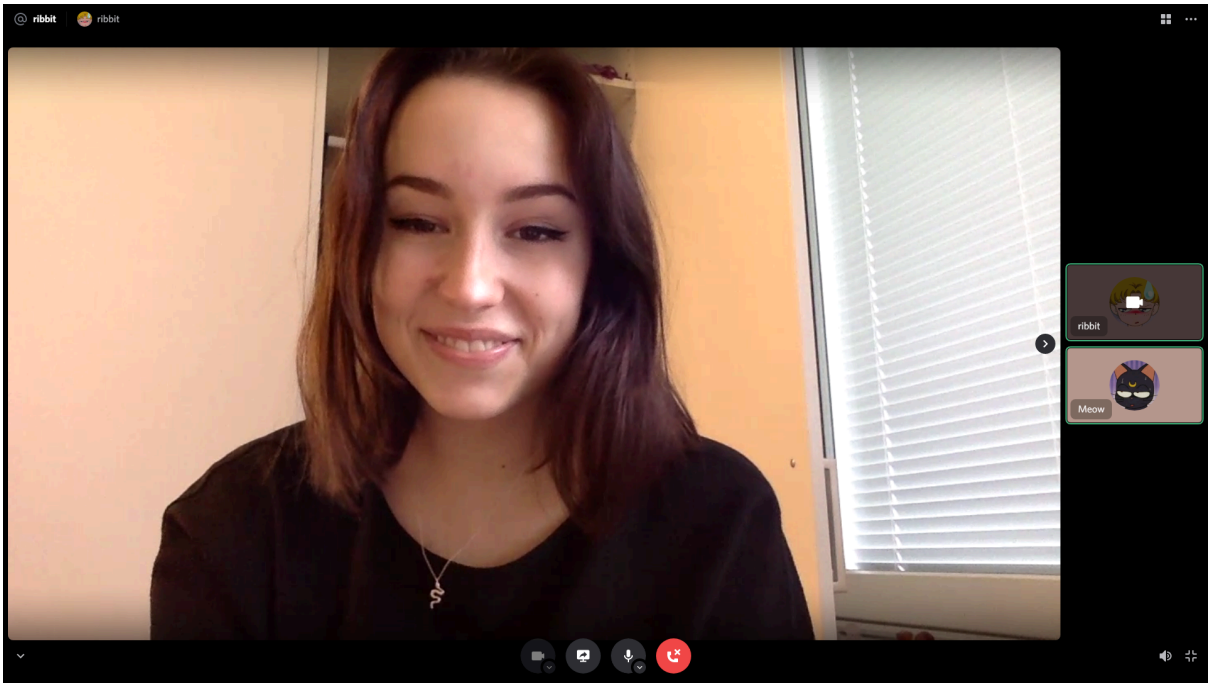

Liv randomly drew this for me one day early 2021 :3

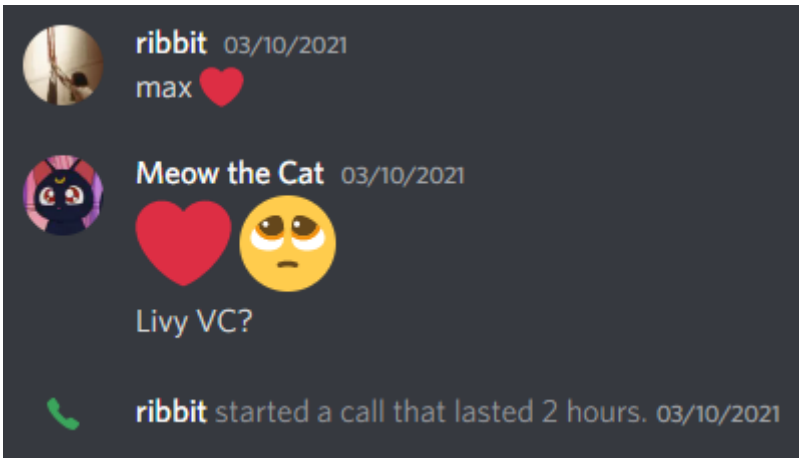

I **spend 1500+ hours** with her on **VC 2021** and **2019 && 2020 stuck-up for me heaps** in the community ~ **some random screen caps** from **journal entries**

So basically I only have internal voices and I have felt physical things twice (wrists cut and feeling blood, and being stabbed in the gut). I don't see or hear anything. I have 5-7 different voices all at the same time, most are in the background and only 2 are the loudest and the ones I communicate with 24/7, they never go away. One is judeo Christian god and the other is one of the gods. The judeo christian god is the one that made me say and do crazy shit that ended up with me being forced to take medications. I know this because without medication I became normal to the outside world when I rejected jc god and allowed myself to be guided by one of the gods. But it was too late my parents didnt believe I was fine so I was forced to take meds. The 3rd injection I got is what disabled me. And after that injection jc god bragged about he planned this all along and that now I will never fulfill my destiny. So basically I am told I am meant to rewrite word for word ancient pagan texts and history that has been destroyed and to begin the spread of the religion before I die. The judeochristian god never bothers me anymore unless I am writing what I am told to write
There alot more to it
But I already wrote alot so I guess thats just a summary

Stuff like this until she blocked me January 19th 2022

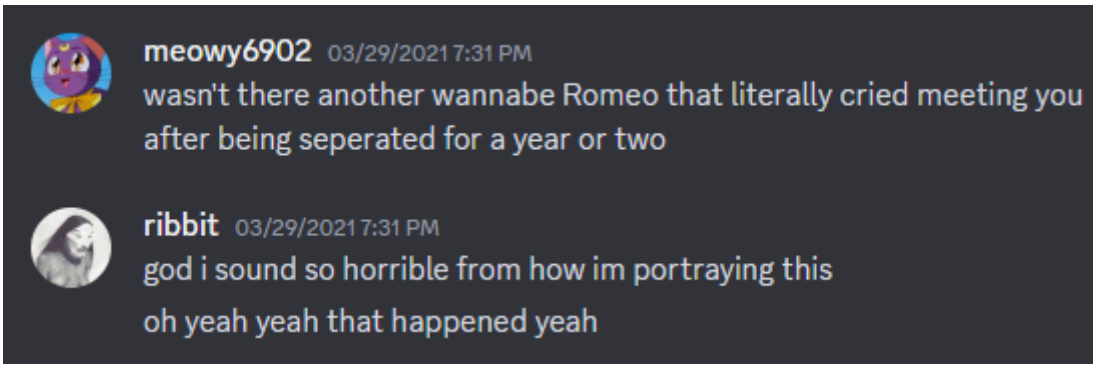

Reasons Liv blocked me

Liv tends to be **pretty cutthroat** or **manipulative** especially with men but I know that she did **genuinely care heaps for me at one point**.

Excusing my **behavior** and explaining the slack she cut me …

Liv is a huge feminist and anti-racism activist. I've **heaps** of **colored friends** that I wouldn't trade for the world and I'm **not actually racist as Jawad told me** but I like to post **racist memes** and **rant** and **go overboard**. I also **emotionally invalidated her** constantly.

ribbit 09/24/2021 5:04 PM
